Feature	FROSTED ELEGANCE (The frosted pump head design creates a soft, diffused glow for an elegant visual effect, blending seamlessly into any build. The logo plate features a minimalist design that can be customized or left blank to suit your personal style), COOL AND QUIET (The LE V2 series features an advanced water pump designed for efficient and quiet performance, powered by a 3-phase, 6-slot, 4-pole motor that rotates up to 3400 RPM), EFFICIENCY AT ITS FINEST (The included Hydro Bearing ARGB fans provide reliable cooling performance with vibrant lighting effects. Designed for durability and smooth operation, these fans maintain lower noise levels for everyday use), ANTI-LEAK TECHNOLOGY (The LE V2 liquid cooler features DeepCool's patented Anti-Leak Technology. The internal valve regulates pressure and will purge it when internal pressure exceeds atmospheric pressure; this leads to a longer useful life while reducing the possibility of leaks), SIMPLIFIED INSTALLATION (Pre-installed fans on the radiator streamline the setup process. Everything needed to mount the LE V2 to the latest mainstream CPUs is included in the box, so you are ready to go).
