Feature	<p>DeepCreative The Control Center (Bring all of the great features of the LP360 coolers alive in DeepCreative. Through this comprehensive application, you can view real-time statistics of your system, look up system details, and have full access to compatible devices. It is here that you can choose to have the ARGB halo synced to your motherboard's ARGB controller and add your personal touch to the dot-matrix screen. The many preset screen options can be split into single or dual parameter options), 5 PRO GENERATION PUMP (Built on DeepCool's optimized 5 PRO generation high-performance water pump, the LP360 brings cooling modern power-hungry CPUs to the next level), FINE TUNED FD12 ARGB FANS (Optimized FD12 ARGB PWM fans are included with the LP360 and have been fine-tuned to provide excellent cooling performance with a long-life Hydro Bearing. The LP360 includes three of these specialized FD12 fans, which have an easy-to-manage 8-pin cable that can be chained to each of the FD fans), ANTI-LEAK TECHNOLOGY (The LP liquid coolers feature DeepCool's patented Anti-Leak Technology. The internal valve regulates pressure and will purge it when internal pressure exceeds atmospheric pressure; this leads to a longer useful life while reducing the possibility of leaks), QUICK AND EASY (The included mounting hardware provides an easy installation process that ensures proper contact and equal pressure on both Intel and AMD platforms. Everything needed to mount the LP360 to the latest mainstream CPUs is included in the box, so you are ready to go!), PRO GENERATION PUMP (Built on DeepCool's optimized 5 PRO generation high-performance water pump, the LP360 brings cooling modern power-hungry CPUs to the next level), FINE TUNED FD12 ARGB FANS (Optimized FD12 ARGB PWM fans are included with the LP360 and have been fine-tuned to provide excellent cooling performance with a long-life Hydro Bearing.
