Others	<p>Advanced hardware stack and the first headset with the Snapdragon XR2 Gen 2, delivering double the GPU processing power for faster load times and more seamless gameplay compared to Meta Quest 2. This brings enough power to support heavy applications like fast-action gaming, seamless full-color, high-resolution passthrough and so much more. 2 RGB cameras with 18 PPD, for 10X the resolution of Quest 2 and 3X the resolution of Quest Pro in passthrough. Delivers full-color, high-fidelity views of your surroundings while you see virtual objects appear in your physical space. Accurate depth projection and room mapping gives you freedom to move throughout your space and interact with virtual characters or objects in the room around you. Integrated stereo speakers with 3D spatial audio places you in your space with 40% louder audio range, bass range and optimal L/R matching capabilities. 3.5mm audio jack for headphones and sound output to external audio devices. 2064x2208 pixels per eye enhances resolution by nearly 30% compared to Meta Quest 2 for next-level clarity and lifelike graphics. 4K+ Infinite Display with 25PPD and 1218 PPI brings the best resolution across the entire Quest line of devices. Refresh rate; 72Hz, 80Hz, 90Hz, 120Hz. Field of view: 110 degrees horizontal and 96 degrees vertical. This extends your peripheral vision to let you see more of virtual worlds, all at once, for the most immersive experiences yet. Pancake lens provides a slimmer optic profile without compromising the depth of your visual immersion. Increased sharpness by 25% in center FOV (70% sharper in periphery), with significantly less stray or scattered light artifacts. Accommodated IPD range: 53-75 mm, with mechanical lens spacing adjustment wheel for smooth adjustment and better visual clarity. Play comfortably with a streamlined, ring-free design. Experience more natural movement and precise input as if they are a natural extension of your hands. TruTouch variable haptics provide tactile feedback, enabling a more holistic range of in-experience sensations so you can touch, move and react realistically within virtual environments. 2 RGB Color cameras and depth projector for improved depth and resolution. Battery Usage on Average: Standard 2.2H, Gaming 2.4H, Social 2.2H, Productivity 1.5H, Media 2.9H. Charge time: Approximately 2.3 hours with the included 18W power adapter (headset only). Easy charging: Built-in USB-C port for charging and connectivity, Can connect with an Android phone with Meta Horizon mobile app.</p>
Feature	<p>Soft adjustable strap accommodates a variety of head shapes and hairstyles. Easily adjust the facial interface closer or farther from your face to improve comfort and field of view. Advanced hybrid computer vision and machine learning sensors follow your gestures, with 4 IR cameras and 2 RGB cameras cameras to enable controller-free navigation and more intuitive control. Simply move your hands to tap, scroll, navigate and play. Full access to the entire catalog of Meta Quest apps, games and experiences. Keep playing your favorite titles, with game updates to optimize viewing and performance.</p>
